ABOUT US

At Bluefin LED, we specialise in the design, manufacture and supply of innovative underwater LED marine lights.

Technically superior and quality assured, our advanced LED lights are engineered in the UK from the finest sourced components and materials and can be used to provide breathtaking nighttime illumination on all types of boat and yacht. Onshore, they can be installed with confidence into pontoons, marinas and dockyards.

Quality, care, innovation and passion go into each and every one of our products and this is clear to see throughout the range. We are also unique in offering internal driver systems as standard to reduce both cost and installation time for the end user.

Our lights are available in white, blue and green as standard and soon to be released colour changing options for that perfect finishing touch.

Whatever your requirements, Bluefin LED can provide an exceptionally reliable, maintenance free and highly economical solution.

"See the power, feel the difference"

PIRANHA P3

The Piranha P3 Underwater Light strikes fear into the heart of its competitors, small yet ferociously powerful the compact low profile design with patented coaxial collimator makes the Piranha P6 the perfect choice for all types of boats and is suitable for transom and side mounting on all hull types.

Incredibly simple to install just one small cable entry hole and 3 mounting screws. Reverse polarity protection with in built driver technology and active thermal control, Guard X protective coating prevents marine growth.

Available Colours: Topaz Blue, Diamond White, Emerald Green

Recommended Boat Size: up to 7m, 25ft
Lumen Output: 1100
Current: 12V DC 1.2A

PIRANHA DL6

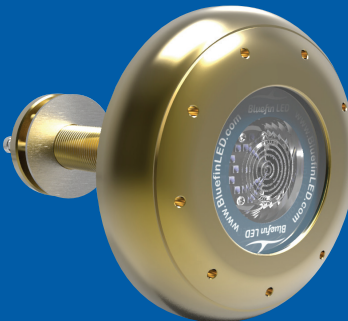

The Piranha DL6 Underwater Dock Light is the most powerful and efficient Dock Light available on the market, manufactured from the highest quality marine grade bronze its innovative and compact design makes it ideal for breathtaking illumination and safety of marinas, docks, pontoons and water features.

Multiple mounting options ensures a very simple installation, pipe can easily be fabricated and installed on site, lens cover can be serviced if required. Reverse polarity protection with in built driver technology and active thermal control, Guard X protective coating prevents marine growth accumulation.

Available Colours: Topaz Blue, Diamond White, Emerald Green

Lumen Output: 2500
Current: 12V DC 2.75A

STINGRAY S16 & S20

The Stingray S16 & S20 Underwater Lights carry a powerful sting in their tail, this Thru Hull light offers formidable power without compromise, suitable for Transom mounting on all hull types. Choose either the S16 @ 5600 Lumens or the S20 @ 9000 Lumens.

Installation could not be simpler thanks to our inbuilt driver technology, just one small 1" hole for the stem and two wires to connect. Reverse polarity protection with active thermal control, Guard X protective coating prevents marine growth.

Available Colours: Topaz Blue, Diamond White, Emerald Green
Colour Change model available soon.

Recommended Boat Size: up to 25m, 80ft / up to 30m, 105ft+
Lumen Output: 5600 / 9000
Current: 12V DC 3.8A / 24V 7.5A / 24V DC 5.1A

PIRANHA P6

Nearly twice the power of its sibling the Piranha P6 Underwater Light packs a powerful bite, with 2100 Fixture Lumens the patented coaxial collimator ensures deep penetration into the ocean. The compact low profile design makes the Piranha P6 the perfect choice for all types of boats and is suitable for transom and side mounting on all hull types.

Incredibly simple to install just one small cable entry hole and 3 mounting screws. Reverse polarity protection with in built driver technology and active thermal control, Guard X protective coating prevents marine growth.

Available Colours: Topaz Blue, Diamond White, Emerald Green
Colour Change model available soon.

Recommended Boat Size: up to 14m, 45ft
Lumen Output: 2100
Current: 12V DC 1.2A

HAMMERHEAD H16 & H20

The Hammerhead H16 & H20 Underwater Lights are the most powerful surface mount lights on the market today, choose either the H16 @ 5600 or H20 @ 9000 lumens. Its unique design and unrivalled performance make this product truly one of a kind, suitable for Transom mounting on all hull types.

Incredibly simple to install thanks to inbuilt driver technology, just two wires to connect, one cable entry hole and 5 mounting screws. Reverse polarity protection with active thermal control, Guard X protective coating prevents marine growth.

Available Colours: Topaz Blue, Diamond White, Emerald Green
Colour Change model available soon.

Recommended Boat Size: up to 25m, 80ft / up to 30m, 105ft
Lumen Output: 5600 / 9000
Current: 12V DC 3.8A / 24V DC 7.5A / 24V DC 5.1A

GREAT WHITE GW16 & GW20

The Great White GW16 & GW20 Underwater Light sets pulses rising, the ultimate predator feared by all. Almost unlimited mounting options thanks to a ultra low profile bezel (4mm) and internal driver system. Thru Hull mounting offers secure fixing with the additional benefit of a removable LED cartridge to eliminate the need for hauling and guaranteed peace of mind. Suitable for all Transom and side mounting on all hull types.

Simple installation thanks to our inbuilt driver technology, just two wires to connect. Reverse polarity protection with active thermal control, Guard X protective coating prevents marine growth.

Available Colours: Topaz Blue, Diamond White, Emerald Green
Colour Change model available soon.

Recommended Boat Size: up to 25m, 80ft / up to 30m, 105ft+
Lumen Output: 5600 / 9000
Current: 12V DC 3.8A / 24V DC 7.5A / 24V DC 5.1A
