Waterproof Handset with Bluetooth® Wireless Technology

Cobra's MR F300 BT EU is the loudest and clearest way to take mobile phone calls on your boat! Do you ever worry about getting your mobile phone wet or missing a phone call? Do you have a hard time making clear calls while under way or in windy conditions? Cobra's MR F300 BT EU solves all of these problems.

## FEATURES

FEATURES	BENEFITS
MicroBlue™ Technology Patent Pending	<b>Bluetooth®</b> Wireless Technology in a unique noise-canceling handset design.
Noise-Canceling Microphone	Cobra exclusive noise muting technology for crystal clear communication. Loud and clear incoming audio. Phone calls are heard through the unit's powerful speaker.
Simple Installation	Install and setup in as little as 30 minutes.
Submersible to JIS7 Specification	Meets JIS7 Standards; submersible for 30 minutes in one meter deep water.
Large Illuminated Display	Large dot matrix display area allows for clarity and ease of view and use.
No Recharging	No need to recharge or replace batteries.
EasyGrip® Microphone	Cobra has been making microphones for 40+ years. We know what works!
EasyPair	Easy one-time configuration. Simply use your <b>Bluetooth®</b> capable mobile phones menu to pair it with the MR F300 BT EU, the same way you would a <b>Bluetooth®</b> headset.
Caller ID	The number and name (if in contact list) of incoming calls appears on the LCD screen for easy caller identification.
Easy Redial Operation	One-touch redial of last phone number dialed.
Call Log	Press one key to see the Call Log of incoming, outgoing and missed calls. Easily call any number on the list.
Phone Book	Your 50 favorite people. Easy to program and easier to dial. Makes it easy for you to access your most frequently used numbers.
Adjustable Volume	Volume can be set or controlled during the call with ease.
10 Selectable Ring Tones	Choose from 10 of Cobra's predefined ring tones.
Optional VOX	This software controlled option (with a dedicated button) allows you to use this device in a speakerphone hands-free mode. For normal operation, you press the PTT button while you talk, eliminating all of your background noise.
Backlit Blue Buttons and Display	Great visibility during day or night. Easy to operate with a cool blue display. Low backlighting settings for low-light bridge conditions.
8 Phone Pairing	Pairs with up to 8 different mobile phones. One used at a time. Easy to switch between paired phones.
External Audio Output	Allows a method for you to connect the MR F300 BT EU to your stereo's Aux Input. The voice of your caller (To Marine Stereo) can be played through your stereo over your boat's amplified speaker system.
Waterproof Deck Connector	This device connects directly to your boat's 12V DC power system through an easy to install waterproof plug.
USB Upgradeable	Cobra software upgrades and enhancements can be made through a standard USB Connector.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc., and any use of such marks by Cobra is under license.

### THIS IS NOT A VHF RADIO

Cobra does not endorse mobile telephones as substitutes for marine radios. They generally cannot communicate with rescue vessels and, if you make a distress call on a mobile telephone, only the party you call will be able to hear you. Additionally, mobile telephones may have limited coverage over water. If you do not know where you are, the Coast Guard will have difficulty finding you if you are using a mobile telephone.

However, mobile telephones can have a place onboard where coverage is available - to allow social conversations and keep the marine frequencies uncluttered and available for their intended use.
