

NH-6500

Join the NYNE home audio revolution. With NH-6500's advanced acoustic technology never before has so much power and unsurpassed sound excellence been available in one unit.

Be prepared to revolutionize your lifestyle. NH-6500 is a professional-quality iPod®, iPhone® and iPad® docking tower compatible with Bluetooth® 2.1 A2DP and other protocols.

NH-6500 has the power and capability to exceed all your expectations for a home audio system. Listen to music from your mobile device, tune in to your favorite AM/FM station, or use your CD player and stroll down memory lane with those CDs you've been saving. With NH-6500 you can do all that, and more. There is auxiliary input for MP3 or other devices, video out for connection to your TV, and even a clock and alarm. By adding a guitar control which is sold separately, the NH-6500 also functions as a guitar amplifier.

Although NH-6500 is a work of art designed to harmonize perfectly with even the most stylish of homes, the real beauty can't be seen but must be heard. Using the most advanced acoustic technology, NH-6500 provides the ultimate in sound quality in an immersive listening experience. The pure acoustic excellence is channeled through dual woofers and dual tweeters, with a dedicated subwoofer that fills in the lows. NH-6500 uses wireless technology to banish old-style racks, stacks, and cumbersome wiring. It delivers a Sound Solution for home audio that suits your mobile lifestyle. NH-6500 – home audio redefined.
